

Editing and publishing department began its work as a business unit of the V.M. Gorbatov All-Russian Meat Research Institute (VNNIMP) of Rosselkhozacademia from the first years of the Institute creation. The department is engaged in the publishing activity of VNNIMP: edition of books, monographs and other non-periodical editions of the branch format; selection of the materials of the scientific, advertising and production character; writing of the information articles and interviews; subscription to and distribution of the [journal "All about meat - the theory and practice of meat processing"](#)

.

The journal ["All about meat - the theory and practice of meat processing"](#) has been issued by the editing and publishing department since 1998 and is a peer-reviewed journal included in the list of the Supreme Attestation Commission (VAK) (postgraduate study, doctoral studies). Among our authors are the acknowledged authorities, whose publications are always an event in the scientific world. Journal content is formed from the materials of the scientific workers, heads of enterprises, technologists and IT- specialists working in the field of food industry. Scientific works are obligatorily peer-reviewed by the leading scientists of VNNIMP.

A special feature of the journal ["All about meat"](#) is that its content is always topical. Being deeply integrated into the scientific community, the [journal "All about meat - the theory and practice of meat processing"](#) is able to bring significant benefits to the specialists as a source of new professional knowledge, and heads of the enterprises and marketing specialists will find information about top trends conditioned by scientific, economic and regulatory factors. The journal provides the specialists of the branch and scientists with the scientific-technical information about the new national and foreign advances in science, technique and technology of meat and meat products production.

Correct and quick solutions are always necessary and their basis should be only quality information from reliable sources. Cooperation with journal ["All about meat"](#) facilitates the recognition by the academic community of our country and abroad, the establishment of the scientific and business relations with the colleagues from Russian academic institutions and industrial enterprises. We invite you to publish your work in the journal ["All about meat - the theory and practice of meat processing"](#), which is known for a long time to the academic community and meat industry specialists for its contribution to meat science.

We will be glad to work together with you so that the advanced experience of not only Russian
